Backend Projects

Football-Player

- It is a website for the Football Academy that has a dashboard to control the entry of tests for players, display a profile for each player, enter the results of each test for the players, with successful players appearing on the index page, and display the failed players in the archive with the ability to retrieve and delete the player from the archive with an interface for the user. The player enters his data and the results of the exams appear in Play profile when inquiring with a phone number

DesignArabia

- A site that contains many services that contains CRUD in the dashboard, contains many pictures, contains a display of the product with CRUD in the dashboard, and contains a question item using relationships. The question is linked to the answer with the possibility of CRUD.

Factory

- It is a frontend website and a dashboard for the admin to control data entry, modification, deletion, and data display in Arabic and English. The site provides a clothing factory and contains a school to register for. .

Book your party

- This is a party project through which I can control how many I reserve tickets for the customer , used CRUD in laravel and API to show the data in postman .

Product marketing

- A website dealing with modification of   products CRUD .have middleware and controller ,with API to show products in postman .

Frontend Projects

Ecommercef Api project)

- It is a trading site that I linked to an API. I searched the data and used the redux & toolkit library on it, and the axios library is a product display page, and each product has a single page, a shopping card, and a page with all the products I required There is also data for login that you can do with Firebase. The person can log in with Gmail using Firebase, and there is also a payment method with PayPal.

Movies

- It is a movie platform. The movies came from the style API of the @mui_material library
- and I used the axios and react_dom libraries in it.There is a search for this search. Once I search
- for a letter, it brings me all the movies that begin with this letter And there is also pagination
